Practical: 02

Aim: **Design HTML form for the Student registration application.**

HTML Code:

```html
<html>
    <head>
        <title>Reistration Form</title>
    </head>
    <body>
        <p align="center"><font face="Algerian" color="olive"
size="100px">Registration Form</font><br></p>
        <form name="regform" method="post">
            <label for="fname">Enter Your First Name:</label>
            <input type="text" name="fname"><br><br>

            <label for="mname">Enter Your Middle Name:</label>
            <input type="text" name="mname"><br><br>

            <label for="lname">Enter Your Last Name:</label>
            <input type="text" name="lname"><br><br>

            <label for="cname">Enter Your College Name:</label>
            <input type="text" name="cname"><br><br>

            <label for="addr">Enter Your Residential Address:</label>
            <textarea maxlength="100" name="addr"></textarea><br><br>

            <label for="email">Enter Your Email Address:</label>
            <input type="text" name="email"><br><br>

            <label for="mono">Enter Your Mobile Number:</label>
            <input type="text" name="mono"><br><br>

            <label for="gender">Select Your Gender:</label>
            <input type="radio" value="Male" name="gender">
            <label for="male">Male</label>
            <input type="radio" value="Female" name="gender">
            <label for="female">Female</label>
            <input type="radio" value="Rather Not Say" name="gender">
            <label for="rns">Rather Not Say</label><br><br>

            <label for="country">Select Your Country:</label>
            <select name="country">
                <option value="India">India</option>
                <option value="USA">USA</option>
                <option value="Israel">Israel</option>
                <option value="Russia">Russia</option>
```

```
                <option value="France">France</option>
            </select><br><br>

            <label for="pass">Enter Your Password:</label>
            <input type="password" name="pass"><br><br>

            <label for="repass">Retype your Password</label>
            <input type="password" name="repass"><br><br>

            <input type="submit" value="Submit"></button>

            <input type="reset" value="Reset"></button>
        </form>
    </body>
</html>
```
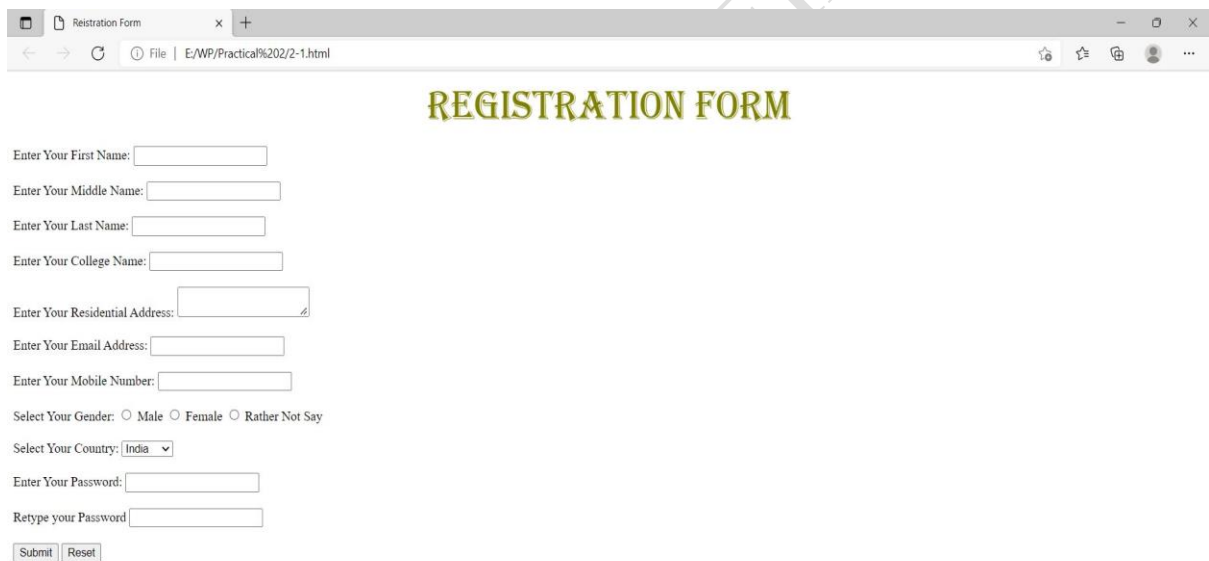

Output:
